## TOWER DETAILS

Name of the city \*

---

Name of the tower \*

---

Height from base to top of antennas (ft and meters)

---

Architect(s)

---

Engineers

---

## IMAGES

PLEASE ADD UP TO 5 IMAGES TO THE E-MAIL

We suggest the following shots - day \*, night \*, view from observation deck \*, restaurant and / or adventure

Image size : under 5MB | Acceptable formats : .jpg or .png

## FEATURES

Name of restaurant(s) / bar(s)

---

Seating capacity

---

If revolving, how long does it take to complete a revolution?

---

Does the tower have an adventure element - if yes, what is it?

---

How many observation decks/levels does the tower have? \*

---

Height of observation deck(s) (specify meters or feet) \*

---

Height of restaurant(s) (specify meters or feet)

---

How many stories is the tower?

---

How many windows does the tower have?

---

How many flights of stairs lead to the top? \*

---

How many years did its construction take?

---

Date of inauguration \*

---

## ENGINEERING AND CONSTRUCTION FACTS

Capacity of elevator(s) in number of persons \*

---

Capacity (in persons) of elevator(s) per hour \*

---

Elevator(s) speed (km/h) \*

---

Max. people working on the tower at any given time during its construction

---

Maximum design wind speed (km/h)

---

Maximum diameter of shaft

---

Minimum diameter of shaft

---

Name of elevator manufacturer

---

Number of elevators \*

---

Number of broadcasting facilities

---

Sway of antenna(s) from core

---

Total construction cost (in USD)

---

Total weight of tower (metric tonnes)

---

Unique features of observatory(ies)

---

Fun facts about the tower

---

Fun facts about the observatory

---
